

BROOKS

The background of the page features a photograph of a person's legs in motion, running up a set of stairs. The person is wearing dark shorts and light-colored socks. The image is slightly blurred to convey a sense of movement. To the right of the photograph, there are three vertical stripes of different colors and textures: a yellow stripe, a red stripe, and a green stripe. The overall design is modern and dynamic.

There's *energy* inside us waiting to be
unleashed.

The electricity of a late-race surge.
The rush of exploring the outdoors.
The dopamine release of daily movement.

This season, we're unleashing the energy
within us all through products specifically
designed for the moments that make us
want to move further, faster, and stronger
than ever before.

Let's run there.

NO TWO RUNNERS ARE ALIKE

Run Signature helps you pick the right shoes. We start by assessing the way your body runs – this determines your need for support – then empower you with your choice of running experience. This combination helps us make a recommendation tailored to you. Your perfect fit. Let's run there.

A SHOE FOR EVERY RUN. A SHOE FOR ALL WHO RUN.

RUNNING RESPONSIBLY

AT BROOKS, WE CONSTANTLY SEEK WAYS TO ADDRESS OUR IMPACT ON THE PLANET, BECAUSE WE WANT TO INSPIRE EVERYONE TO RUN A MORE PLANET-CONSCIOUS PATH.

Our team drives us towards our ambitious targets through Brooks' People and Planet Path, organized around three priorities:

- 1. RESPONSIBLE SOURCING**
- 2. CLIMATE ACTION**
- 3. SUSTAINABLE CONSUMPTION**

WE ACCOMPLISH THIS WORK THROUGH OUR PARTNERSHIPS WITH:

SBTI (SCIENCE-BASED TARGETS INITIATIVE)

Ensuring our approach is aligned with climate science

CLIMATE IMPACT PARTNERS

Helping us select, purchase, and track high quality carbon credits for carbon neutral product

THE
FOOTWEAR
COLLECTIVE

THE FOOTWEAR COLLECTIVE

Bringing circularity to the footwear industry

Our objectives and ongoing efforts are outlined further in Brooks' annual Corporate Responsibility Performance Report, which inform how we calculate our greenhouse gas emissions and create reduction targets that align with the framework to keep global warming below 1.5°C.

As we create new gear and run our global business, we aim to minimize our impact on the planet.

One of the ways we reduce Brooks' carbon footprint is by sourcing recycled materials made from post-consumer waste products.

EVERY SEASON IS AN OPPORTUNITY TO IMPROVE OUR PRODUCT LINE WITH THE MOST SUSTAINABLE MATERIALS, OUR OPERATIONS WITH SMART CONSUMPTION, AND OUR PROCESSES WITH THE MOST RESPONSIBLE SOURCING.

We hope you'll celebrate this season's wins with us as we continue to move closer to our future goals.

New Fall 2025 apparel and footwear styles **avoided 3,840 metric tons of CO2eq emissions** by using recycled and bio-based materials, equivalent to:

- **9,821,059** miles driven by an average gasoline-powered passenger vehicle
- **63,495** tree seedlings grown for 10 years
- **166,794** trash bags of waste recycled instead of landfilled

For Fall 2025 footwear styles, we have reached:

- **29.9%** average amount of recycled content per product
- **458.99 grams** average CO2eq reduction from use of sustainable materials

Additionally, 60% of footwear final assembly factories have installed onsite solar, generating renewable electricity to meet some of the electricity usage at these factories.

IN FALL 2025, THE FOLLOWING NEW FOOTWEAR STYLES WILL BE CERTIFIED CARBON NEUTRAL:

Ghost 17

Ghost 17 GTX

Ghost Max 3

Cascadia 19 GTX

GLYCERIN MAX

\$200 |

Run effortlessly with cutting-edge nitro-infused DNA Tuned cushion.

Tuned cushion

Featuring DNA Tuned, the next generation of nitrogen-infused foam created with dual-size cell technology. Larger cells in the heel provide plush landings, while smaller cells in the forefoot invite responsive toe-offs.

Effortless transitions

Expertly crafted GlideRoll™ Rocker features dramatically sculpted bevel and toe spring geometries for effortless heel-to-toe transitions.

Stacked to the max

A high stack of DNA Tuned foam helps protect your body from impact.

Additional Benefits

- Unique Linear Last construction adds more volume to the shoe for a comfortable fit inclusive of foot shapes and orthotics.
- GlideRoll™ Rocker can help reduce muscular strain at the ankle joint.
- Featuring a 6 mm offset, which can reduce strain on the plantar fascia.

NEW GHOST MAX 3

\$150 |

Soft and protective max cushion with effortless heel-to-toe transition.

Protective cushioning

A high stack of nitrogen-infused DNA LOFT v3 cushioning helps decrease underfoot pressure for comfort and protection.

Easy, assisted transitions

A low offset combined with a GlideRoll™ Rocker actively assist heel-to-toe transitions to help your movements feel effortless.

Stable ride

A broad base provides inherent stability that won't interfere with a neutral stride.

Additional Benefits

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.
- Unique construction adds more volume to the shoe for a more inclusive fit and accommodates orthotics.
- Engineered mesh optimizes breathability.
- Combination of cushioning, GlideRoll® Rocker, and lower offset can help those with plantar fasciitis.
- Designed to reduce energy absorption in foot soft tissues, helping those with arthritis.

GLYCERIN STEALTHFIT 22

\$165 |

Sleek, adaptable upper
and nitro-infused DNA
Tuned cushion.

Tuned cushion

Featuring DNA Tuned, the next generation of nitrogen-infused foam created with dual-size cell technology. Larger cells in the heel provide plush landings, while smaller cells in the forefoot invite responsive toe-offs.

Adaptable StealthFit

Updated flat knit upper offers a blend of stretch and compression that moves with your foot.

Smooth, stable transitions

The broad platform stabilizes your foot, while the tuned heel and forefoot promote smooth heel-to-toe transitions.

Additional Benefits

- Soft flat knit wraps the foot for comfort.

Embrace the run with the perfect balance of cushion, responsiveness and comfort.

Soft and dynamic cushioning

Premium nitrogen-infused DNA LOFT v3 cushioning delivers lightweight softness and feel-good comfort, mile after mile.

Enhanced design

A new double jacquard air mesh upper and kickback collar provide added structure and comfort.

Smooth transitions

The newly designed midsole combines with precise flex grooves to promote added flow toward toe-off.

What's New

- 3 mm of added DNA LOFT v3 cushion in the forefoot, 1 mm of added cushion in the heel for added comfort and a 10 mm offset.

Additional Benefits

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.

NEW GHOST 17 GTX

\$170 |

Embrace the run, rain or shine, with the perfect balance of cushion and comfort.

Waterproof GORE-TEX® technology

GORE-TEX® Invisible Fit is bonded directly to the upper for a light, flexible fit that provides breathable protection from the elements.

Soft and responsive cushioning

Premium nitrogen-infused DNA LOFT v3 cushioning delivers lightweight softness and feel-good comfort, mile after mile.

Smooth transitions

The newly designed midsole combines with precise flex grooves to promote added flow toward toe-off. The new wet traction outsole also helps ensure each step is secure on wet surfaces.

What's New

- 3 mm of added DNA LOFT v3 cushion in the forefoot, 1 mm of added cushion in the heel for a 10 mm offset and added comfort.
- New wet traction outsole for enhanced traction on wet sidewalks.

Additional Benefits

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.

Soft, supportive,
and super protective.

Dynamic cushioning

Our DNA midsole technology delivers soft, adaptive cushioning that reduces impact on your joints as you move, for a protective feel all day long.

GuideRails™ holistic support system

Our innovative technology supports your body in its natural motion path while keeping excess motion in check.

Roomy, comfortable fit

Unique forefoot construction accommodates orthotics and high-volume feet, while an engineered air-mesh upper and 3D FitPrint offer the perfect blend of stretch and structure for supreme comfort.

Additional Benefits

- One-piece outsole keeps the shoe from flexing too much, a benefit for some runners with pedorthic needs.

NEW **HYPERION ELITE 5**

\$275 |

Athlete-tested innovation
for next-level racing speed.

Unisex

Lighter than air

DNA GOLD 100% PEBA cushioning is the lightest, softest, and highest energy return foam Brooks has ever made.

Tuned propulsion plate

The carbon fiber SpeedVault+ Plate is size-customized for each shoe to decrease weight and help optimize its bending stiffness.

Race-day fit

Updated upper removes all unnecessary weight for a near-invisible fit. Silicone lace-sheaths and full TPU pressed upper seamlessly connect the shoe to the body.

What's New

- DNA GOLD cushioning
- SpeedTack lightweight rubber outsole

Additional Benefits

- Compared to DNA FLASH v2, DNA GOLD is: 11% Lighter, 14% Greater Energy Return, and 25% more flexible.
- The Carbon Fiber SpeedVault+ Plate is near-zero waste.
- Des Linden directly contributed to development and testing.

A soft mesh and suede upper meets high-stacked cushion for maximum comfort.

Suede upper

A soft mesh upper featuring suede details offers everyday wearability.

Protective cushioning

A high stack of nitrogen-infused DNA LOFT v3 midsole foam delivers soft, smooth comfort for a protective feel and easy landings.

Easy, assisted transitions

GlideRoll™ Rocker actively promotes smooth heel-to-toe transitions for an effortless feeling as you move.

Additional Benefits

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.
- GlideRoll™ Rocker
- Linear Last construction adds volume that creates a more inclusive fit, great for orthotics.

Confidence to explore any trail via a stable and adaptable ride

Stable and adaptable ride

Updated Trail Adapt System utilizes a flexible and articulated Ballistic Rock Shield that integrates into a DNA LOFT v3 midsole for a stable and adaptable ride.

All-around traction

TrailTack Green outsole is made with 25% recycled content and offers all-terrain traction in wet and dry conditions, across varied terrain types.

Comfort and protection

Updated with more nitrogen infused DNA LOFT v3 in the heel (+2 mm) and forefoot (+4 mm), while its comfortable sandwich air mesh upper offers protection through 3D print overlays.

What's New

- Improved Trail Adapt System
- Nitrogen-infused DNA LOFT v3 cushioning

Additional Benefits

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.
- The articulated Ballistic Rock Shield provides necessary protection without compromising flexibility or inhibiting heel-to-toe transitions.
- A durable toe cap and mudguard add upper protection.
- 2 mm of added cushion in the heel and 4 mm of added cushion in the forefoot for comfort and protection.
- Forefoot outsole allows for grip on uneven surfaces while the adaptable flex grooves allow for greater control.

Responsive cushion and superior traction to tackle vertical trails with speed.

Uphill efficiency

Improved SkyVault Trail Plate, combined with nitrogen-infused DNA FLASH v2, provides high-energy return and aids uphill running — all while adapting to your unique stride.

All-terrain traction

TrailTack Green rubber outsole is made with recycled content and offers superior traction on both wet and dry surfaces, while the strategic lug geometry allows for agility.

Breathable performance upper

Premium and comfortable single-layer mesh made with strong TPEE fibers is lightweight and breathable while durable enough for rugged trails.

Additional Benefits

- To achieve CarbonNeutral® product certification for this style, we increase use of recycled materials to lower carbon emissions, then support carbon offset projects to neutralize the emissions we can't yet eliminate.
- SkyVault Trail Plate v2 features a full-length curved design, placed strategically in the DNA FLASH v2 midsole, to improve propulsion and stability.
- 3.5 mm outsole lugs

RUN-IN NO-SHOW SOCK 6-PACK

280494 | \$40 |

Sizes

S-XL

Intro date

01/01/2023

Fabric

- 96% Nylon, 2% Polyester, 2% Spandex

More details

- Heel tab prevents slipping on the run
- Y-heel pocket provides locked-in fit at the heel
- Sock name and size stitched in for easy reference

Technical running socks built for distraction-free comfort.

Run-ready fit

Wider arch construction and midfoot compression provides better hold and performance.

Breathable

Mesh zone on the top of the foot delivers ventilation.

Targeted cushioning

Cushioning at heel and toe box provide targeted comfort.

Asphalt/White/Black
CO

HIGH POINT CREW SOCK

280491 | \$20 |

Sizes

S-XL

Intro date for new colors

07/01/2025

Fabric

- 60% Nylon, 19% Wool, 19% Polypropylene, and 2% Spandex

More details

- To make the High Point Crew Sock carbon neutral, we lower emissions by increasing use of recycled materials. To neutralize any remaining emissions, we support independently verified carbon offsetting projects.
- Unique yarn composition for superior cushion and rebound
- Crew length provides protection and comfort for the trail without excess fabric or coverage
- Sock name and size stitched in for easy reference

Long-lasting comfort over the toughest trails.

High durability

Anti-abrasion yarn in high-friction areas makes the sock durable for long-lasting wear.

Protective construction

Reinforcement in the toe box protects sensitive areas for long-lasting comfort.

Sweat-wicking

Merino wool blend wicks sweat and controls odor while mesh venting provides airflow.

TECH TALK

Specialized, high-tech features that set our shoes apart.

midsole

MIDSOLE FOAMS

DNA GOLD

DNA GOLD features nitrogen-infused 100% PEBA to create the lightest, softest, and highest energy return foam Brooks has ever made.

DNA FLASH v2

We reengineered the chemistry of our fastest midsole technology to make it less dense and more — well, more everything. Softer and lighter, with nearly 10% more energy return than the original, nitrogen-infused DNA FLASH v2 foam is designed for high-speed running.

DNA FLASH

A nitrogen-infused midsole cushioning compound that provides ultralight softness with plenty of energy return to power your run.

DNA Tuned

The next nitro-generation of foam is here. DNA Tuned is infused with nitrogen and features dual-size cell technology — larger cells for softness and smaller cells for responsiveness.

DNA LOFT v3

We fine-tuned the nitrogen infusion process to amplify our soft cushion compound. DNA LOFT v3 boasts optimized softness, enhanced responsiveness, and lighter weight, all without sacrificing durability.

DNA LOFT v2

Lighter than the original but just as soft, DNA LOFT v2 has a unique balance of rubber, air, and a less dense, lighter foam, for a plush feel that won't bottom out or weigh you down.

DNA LOFT

A finely calibrated mix of Brooks DNA foam, air, and rubber, DNA LOFT is our soft cushioning engineered for plush comfort without lost responsiveness or durability.

DNA

A responsive midsole technology that cushions each step and adapts to a runner's unique stride, weight, and speed.

FLEXIBILITY & ALIGNMENT

Flex Grooves

Strategic etching underfoot that enhances flexibility, for an effortless forefoot ride without compromising the integrity of the cushioning.

Propulsion Plate

Engineered to push runners forward with every stride, the plate works with ultralight cushioning for optimal race-day efficiency.

SkyVault Trail Plate

A Pebax plate engineered to aid in uphill running. When a runner steps on the plate and pushes off in stride, the plate bends and snaps back into place, delivering propulsion and assistance as the runner climbs. And the unique shape provides flexibility on technical terrain, as well as stability and comfort on downhills.

SpeedVault Plate

Built for daily use, this balanced speed plate features optimized stiffness for training. It's designed to propel the runner forward and provide energy return.

SpeedVault Race Plate

Developed for racing, this plate maximizes energy return and spring for forward propulsion. Featuring premium materials and optimized bending stiffness, plus strategic design that tailors performance to the race distance and surface.

SpeedVault Race+ Plate

Made for speed, this plate delivers a consistent experience for runners with different shoe sizes and builds — the right bending stiffness, with no added weight. And no added waste, thanks to near-zero-waste manufacturing methods.

SpeedVault Trail Plate

Designed for efficient, fast running on technical trails, this Pebax plate's forefront sits close to the ground for optimal forward motion. Its length extends beyond the forefoot to improve performance, and it connects to the big toe for propulsion. Plus, the plate lets the foot articulate, so the shoe goes wherever the runner wants.

Segmented Crash Pad

A system of fully integrated shock absorbers that accommodates any foot landing to maximize efficiency, provide cushioning, and create smooth heel-to-toe transitions.

RapidRoll Rocker

The curved sculpting of the heel and toe of the midsole is constructed to actively propel you forward with effortless speed.

GlideRoll™ Rocker

The GlideRoll™ Rocker facilitates a smooth transition forward in each step. It delivers more comfort — keeping some people in their habitual motion path — to help the body do less.

Trail Adapt System

Strategic configuration of zonal pods on the outsole, designed for traction and stability on uneven terrain.

midsole *(continued)*

SUPPORT

Extended Progressive Diagonal Rollbar

An extended version of our Progressive Diagonal Rollbar, which is a tri-density post at the medial arch that is biomechanically engineered to allow for progressive support and create smoother transitions from the midstance phase to the propulsion phase.

GuideRails™ holistic support system

An innovative, on-demand support technology that guides the body — hips, knees, and joints — into its natural motion path of least resistance.

outsole

Ballistic Rock Shield

A toughened, thermoplastic EVA sheath between the outsole and midsole that protects the forefoot by spreading out point loads from sharp objects.

Blown Rubber

A low-weight rubber compound. We dialed down the density to crank up the responsiveness.

HPR

High-performance rubber, or HPR, is an outsole compound that's abrasion resistant and durable for longer wear.

RoadTack Rubber

Our do-it-all rubber compound designed for durability, light weight, and rebound. Made using a mix of rubber and recycled silica.

Slip-Resistant Outsole (SATRA TM144:2011)

Slip resistance on both wet and dry surfaces.

TrailTack Rubber

A sticky rubber compound that provides outstanding uphill and downhill traction, even on wet surfaces.

TrailTack Green

The next generation of TrailTack Rubber, TrailTack Green, includes recycled content and requires less material to build than the original. So it's easier on the environment while still delivering excellent wet-dry traction on the run.

upper

Engineered Mesh

Custom-designed and strategically woven or knit mesh that provides optimal structure and breathability.

Flat Knit

Knit construction specifically designed to move and expand seamlessly with your foot for a sock-like fit and optimal performance.

Gore-TEX® Invisible Fit

An updated lightweight membrane is bonded directly to the upper for a lighter, more flexible fit, offering breathable, waterproof protection on the run.

OrthoLite® Sockliner

Contoured insert designed to fill any negative space under the foot.

3D Fit Print

An advanced screen-printing process to apply strategic stretch and structure for a seamless, impeccable fit.

Stretch Woven

A lightweight upper construction that wraps the foot for a pliable yet locked-in fit.

TPEE

A durable, abrasion-resistant, hydrophobic fiber used primarily in our Trail upper textiles to help protect the foot from debris.

Ultimate Sockliner

A PU insert with an OrthoLite® memory foam middle layer and convoluted egg-crate surface that provides substantial cushioning, breathability, and conformability.

Have you tried using FastTrack on your mobile or tablet devices?

Using FastTrack on the “go” is easy. In addition to our mobile app – available in your device’s app store – the full web view also scales to screen on your desktop, laptop, tablet, and mobile devices.

With FastTrack you can:

- View available inventory
- Place at once and future orders
- View order status and track shipments
- See who placed orders and access open baskets
- Email suggested baskets
- View and order from Brooks spotlight lists
- Scan barcodes to access product
- Sales reps can review and approve future orders

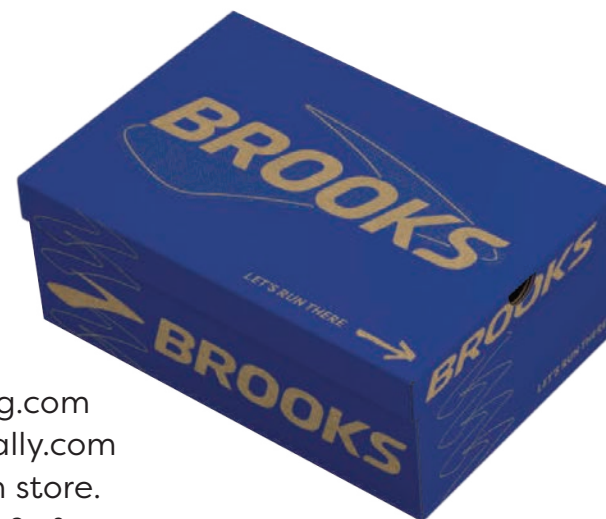

*For optimal performance, use Chrome as your web browser.

FastTrack
BROOKS

LOCALLY

Did you know runners are 4x more likely to do their research on [brooksrunning.com](https://www.brooksrunning.com) and buy in a physical store than they are to finish their purchase online? Locally.com allows Brooks to tell online shoppers when you have our products available in store. We have found that retailers who share their inventory with Locally.com benefit from the web traffic on [brooksrunning.com](https://www.brooksrunning.com). Signing up for Locally can:

INTRODUCE RUNNERS TO YOUR STORE

Locally provides additional exposure to runners new to town or who haven't been into your store yet. Enjoy a customizable notification schedule that lets you receive text and/or email alerts during business hours. You also have the option to direct message with the shopper at any time during the ordering process. Retailers who share inventory with Brooks through our dealer locator on Locally get five times more views than those that don't.

DRIVE TRAFFIC AND SALES

On Locally, customers can choose between these options: Reserve Online/Pickup In Store, Buy Online/Pickup In Store/Same Day Delivery. Sales from these transactions on Locally have increased 4-6X throughout 2020 as customer shopping behavior has evolved. This expanded toolkit gives runners more opportunities than ever to shop your store. You can also accept orders for in-store pickup directly from [brooksrunning.com](https://www.brooksrunning.com), Facebook, your own site, and Locally.com.

HELP US HIGHLIGHT YOUR STORE

When our website inventory runs low, we direct runners to Locally to search retail inventory in their hometowns — at stores like yours! And Brooks can layer Locally's store locator tool into marketing campaigns to drive attendance to store events.

Have any questions or just want to get started? Contact your Brooks rep, or head straight to www.locally.com/go/launch.

NEW

Locally now offers same-day delivery. To provide support for new shopping behaviors, Locally now enables all participating retailers same-day delivery with no additional cost. Same-day delivery is a great addition to in-store or curbside pickup. Available in Postmates market (US only for now), standard 3.5% transaction fee plus carrier delivery charges still apply.
